Dear Sir / Madam,

<u>Requesting for a Six-Month Industrial Training – Software Engineer</u>

I am a 3rd year undergraduate in the Faculty of Computing, Sabaragamuwa University of Sri Lanka, seeking an internship for my **six-month internship** period **from this 9th of August as our Semester VI.** I already have done several Group and Individual projects using **React JS, Next JS Tailwind CSS, HTML, CSS** as Frontend web Application development and some of Backend with Full Stack development projects using **Node JS, Express JS, MongoDB** based in nearly.

I am interested in developing web projects in new languages and development techniques that go beyond my knowledge and face new challenges as well as my skill popup. I can put my maximum effort into my work towards the success of your organization and I think it will great help for my skill and knowledge developing.

I feel confident that I have what it takes to function as a mainly **Software Engineer intern – Web** / **Frontend Web development / React JS development** as well. I would like to request an **internship for 6 months** in your well reputed company. I really appreciate your consideration of my request, look forward to hearing from you as soon as possible. Thank you in advance for your time.

I attached my resume for your consideration and my portfolio can be viewed at,
